ICEWEB RECEIVES MULTIPLE DATA STORAGE ORDERS

Company Continues to Grow Municipality Footprint

STERLING, Va. – (PR NEWSWIRE) – April 13, 2010 – IceWEB, Inc.[™] (OTCBB: IWEB), www.IceWEB.com, a leading provider of unified storage systems and building blocks for cloud storage networks, announced today that the Company has received multiple new customer orders from three new State and Local Government agencies. All of the awards are from first time customers and will ship in the current quarter.

The IceWEB Simply Advanced[™] line of products are a great fit for State and Local Storage administrators looking for a way to get necessary functionality at a price that is affordable. State, County and Local Governments remain understaffed and many times under Information Technology budget constraints. This creates a quandary as storage needs continue to escalate and data becomes more complex to manage. The solution however is quite simple. The IceWEB Simply Advanced storage system provides everything necessary in a unified, ready to deploy system that can scale locally and into a cloud environment.

Karl Chen, IceWEB SVP of Worldwide Sales and Marketing, stated, "It is our goal to provide our channel partners with products that can scale and won't break the budget. Our digital footprint continues to grow as customers have less time to manage data and less money to do it with. Our recipe for success for our channel partners is very simple: to provide a portfolio of products that are competitive with legacy vendors like EMC and NetAPP, at a price that our customers can afford. We look forward to expanding our customer footprint through our 100% channel driven model."

About IceWEB, Inc.

Headquartered just outside of Washington, D.C., IceWEB manufactures and markets data storage products, network and cloud storage solutions and delivers on-line cloud computing application services. Its customer base includes U.S. government agencies, enterprise companies, and small to medium sized businesses (SMB). For more information, please visit www.IceWEB.com.

This press release may contain forward-looking statements, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. In some cases you can identify those so-called "forward looking statements" by words such as "may," "will," "should," "expects," "plans," "targets," "believes," "anticipates," "estimates," "predicts," "potential," or "continue"

or the negative of those words and other comparable words. These forward looking statements are subject to risks and uncertainties, product tests, commercialization risks, availability of financing and results of financing efforts that could cause actual results to differ materially from historical results or those anticipated. Further information regarding these and other risks is described from time to time in the Company's filings with the SEC, which are available on its website at: <http://www.sec.gov>. We assume no obligation to update or alter our forward-looking statements made in this release or in any periodic report filed by us under the Securities Exchange Act of 1934 or any other document, whether as a result of new information, future events or otherwise, except as otherwise required by applicable federal securities laws.
