ICEWEB'S NEW MODEL 6500 HIGH-AVAILABILITY STORAGE CLUSTER REVIEWED BY CRN.COM

"...able to handle all of the traffic we were able to throw at it and it barely seemed to flinch"

STERLING, Va. – (PR NEWSWIRE) – December 7, 2011 – IceWEB, Inc.TM (OTCBB: IWEB), www.IceWEB.com, a leading provider of Unified Data Storage and building blocks for cloud storage networks, announced today that its new Model 6500 High Performance and High Availability Cluster Unified Storage Platform was reviewed on December 6, 2011 by CRN.com. The entire review can be viewed at: http://www.iceweb.com/product_pdf/CRN-IceWebUnveils6500.pdf

Edward J. Correia, the CRN reviewer noted, "For mission critical applications, high availability is everything ... and the IceWEB 6500 cluster is designed specifically for such needs at a price [starting at \$45,000] that's not out of the clouds. For companies with an able IT department that are seeking a high-performance, high-availability system with no single point of failure for mission-critical database, e-mail, virtualization or other applications, the CRN Test Center believes that the 6500 Cluster is worthy of strong consideration."

John R. Signorello, IceWEB CEO said, "When you couple the performance of the 6500 cluster with our checksum technology, RAID and 'Best in Class' Replication functionality, you can see that IceWEB is positioned to serve small, medium and enterprise-level customers with extraordinary price/performance. We're gratified that CRN took the time to thoroughly evaluate the 6500 and welcome other reviewers to do likewise. Going into 2012 we will be announcing even more exciting new hardware and software products."

The Model 6500 is available now. All IceWEB Unified Storage Platforms are available through the Company's exclusive value-added distributor Promark Technology (800-634-0255). Promark markets IceWEB products throughout the United States through its nationwide network of 1,200 channel partners. For more information, please visit www.promarktech.com.
